

PEARL®

NEW!

Slimcut™ SRT™

SYNTHETIC RESINOID TECHNOLOGY

THIN CUT-OFF WHEELS

ULTRA HIGH PERFORMANCE, EXTREMELY LONG LIFE, CUTS FAST AND WILL NOT CONTAMINATE STAINLESS STEEL

Pearl's new SlimCut™ SRT™ is a super high performance thin cut-off wheel designed to cut metal and stainless steel. It is ideal for cutting thin and thick gage as well as flat stock, bar stock square tubing and much more.

The SlimCut™ SRT™ is engineered with Pearl's propriety SRT grain and bond mixture, which makes this wheel cut faster and last much longer than other abrasive thin cut-off wheels on the market.

Pearl's SlimCut™ SRT™ is an INOX wheel, which does not contaminate Stainless Steel, making it ideal for use when manufacturing and fabricating food storage and processing equipment.

Pearl's high performance SlimCut™ SRT™, is one of the longest lasting thin cut-off wheels on the market. This results in fewer wheels changes, reduced downtime and a lower cost per cut.

- **SUPER LONG LIFE**
- **LOWER COST PER CUT COMPARED TO OTHER THIN CUT-OFF WHEELS**
- **REDUCED DOWN TIME WITH FEWER WHEEL CHANGES**
- **INCREASED PRODUCTION**

APPLICATIONS: For Carbon and Stainless Steel

CONTAMINATION FREE
(Fe + S + Cl < 0.1%)

In stackable plastic containers.
25 wheels per container.

TYPE 1		
PT. NUMBER	SPECS • GRIT	MAX RPM
CWSRT4532A	4-1/2 x .045 x 7/8 • SRT46	13,300
CWSRT0532A	5 x .045 x 7/8 • SRT46	12,200
CWSRT0632A	6 x .045 x 7/8 • SRT46	10,200
CWSRT0732A	7 x .062 x 7/8 • SRT46	8,500

TYPE 27
