

# **PEARL®**

## **WATER HOSE KIT FOR MASONRY SAWS** VX141MS, VX141MSPRO and VX141MSPROR

### **PART # V350MSGHKIT**

WATER HOSE KIT INSTALLATION:

FOR **VX141MSPRO** & **VX141MSPROR RENTAL**

1. Orient the water pipes as shown in Fig. A. Insert the shortest pipe from the "Y" adapter into the adjacent sleeve at the rear of the blade guard. First, you will need to remove the black cap covering the hole insert (#1). The longest pipe, which has a control valve midway, should be pointed towards the floor.

2. Insert the second pipe protruding from the top of the "Y" adapter into the slot located on the side of the blade guard towards the front of the saw. This is the hole in the front of the blade guard (#2), do not remove the black caps on the side. See Fig. B.

The clamp included is only used on VX141MS -- not VX141MSPRO (RENTAL)

WATER HOSE KIT INSTALLATION:  
FOR **VX141MS**

---

1. Orient the water pipes as shown in Fig. A. Insert the shortest pipe from the "Y" adapter into the adjacent sleeve at the rear of the blade guard. First, you will need to remove the black cap covering the hole insert (#1). The longest pipe, which has a control valve midway, should be pointed towards the floor. Secure the "Y" adapter to the rear of the blade guard using the provided bracket and screws.

2. Insert the second pipe protruding from the top of the "Y" adapter into the slot located on the side of the blade guard towards the front of the saw. This is the hole in the front of the blade guard (#2), do not remove the black caps on the side. See Fig. B.
