

THE NEXT STEP UP IN ABRASIVE GRAIN TECHNOLOGY!

CBT PRO

CERAMIC BOND TECHNOLOGY RESIN FIBER DISCS

The new CBT PRO ceramic fiber discs feature a special engineered grain, perfect for all coarse grinding application. These special shaped grains offer high performance and maximum stock removal while maintaining a consistent surface finish. The CBT PRO fiber discs also provide cool grinding, long service life, and improved chip clearance to ensure exceptional cut rates and maximum productivity.

- Precisely shaped ceramic grain
- Optimal grain structure ensures even and aggressive cuts
- Top quality size coat provides higher abrasive performance
- Strong vulcanized fiber backing

- Special engineered, shaped grains provide much increased stock removal
- Improved service life allows more workpieces per disc and can result in a reduction in operating costs
- Ideal grain structure, high-end size coat and strong vulcanized backing provide additional safety to users

MODEL	ITEM ID	SPECS	GRIT	MAX RPM	BOX/CTN

Available with Pearl's Type 2 arbor lock fastener

This allows the operator to make quick disc changes, with a tool-free twist on and off motion. They can be used with standard back-up pads. With these quick change fasteners, the operator can change discs quickly allowing more time to grind/sand.
