

P2[™] PRO-V THIN TURBO MESH

PORCELAIN / GRANITE BLADES

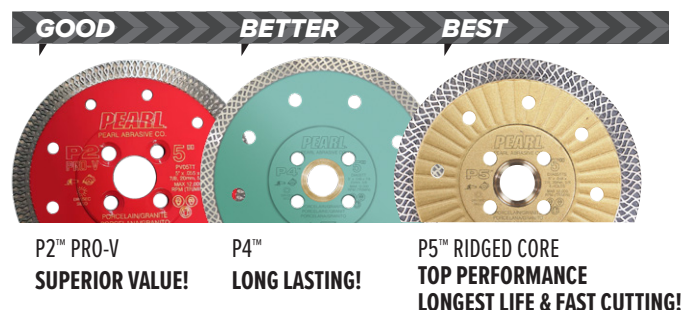

- Thin turbo mesh rim and core for fast cutting and minimal chipping
- Large 10mm diamond rim
- Ideal for cutting extra hard ceramics, porcelain and other hard/dense materials
- Reinforced inner core prevents flexing and provides straight cuts
- Consistent performance and superior value
- Extra-long life
- Wet or dry cutting (10in. wet cutting only)

Applications: For Porcelain, Ceramics, Tile, Natural Stone and Masonry products
