

TWIST PRO

PEARL LEVELING SYSTEM

The new pro tile laying cylinder system! PUTTING PRECISION IN YOUR HANDS.

The new professional tile laying cylinder system designed to offer extremely quick, accurate, and user-friendly installation. Its self-locking clamping mechanism, built-in anti-scratch element, and instant screw release system make Twist Pro an innovative laying solution on the market.

Effortless, tool-free

Installation takes just a few seconds and one simple movement, for quicker and less distressing work.

Stability and accuracy guaranteed

The self-locking clamping system offers a firm grip, with extreme precision guaranteed at the leveling stage.

Anti-scratch material

The built-in anti-scratch element prevents surface scratching and marking, with flawless result on sensitive materials as well.

Quick removal means instant reuse

Quick ejection of any broken screw helps save time and makes seamless work flow.
